## AVIATION CHALLENGE®

The museum boasts incredible displays of artifacts from our nation's space program, as well as hands-on interactive exhibits, motion-based space simulators, the Olympus Mons Climbing Wall, and of course, the magnificent IMAX® Spacedome theater. The Space & Rocket Center is also the official NASA Visitor Center for Marshall Space Flight Center, NASA's lead center for transportation systems and microgravity research.

Participants train at the U.S. Space & Rocket Center, the world's largest space science museum and the home of SPACE CAMP and AVIATION CHALLENGE.

## SPACE CAMP®

### Corporate Programs offered by Rocketman Productions

Program Options and Costs

- Costs vary depending on program and activities chosen.
- Call for sample schedules and pricing guide.
- Accommodations are NOT included in program prices.
- We can provide area hotel information.

### Corporate Aviation Challenge

One Day Sample Schedule

Program Availability

Programs are offered year round, however, availability is extremely limited from June through August. Programs are reserved on a first-come, first-served basis. A 50% deposit is required at the time of reservation to secure each session date.

### Program Availability

### We Take Corporate Development Training and Incentive Programs to New Heights.

It takes a good team to win the company softball tournament. It takes a GREAT team to launch the world's most complicated machine into space. Let our team of professionals customize a one, two or three-day package for you.

Explore your team's potential. Call Rocketman Productions today at 408.487.1804 to learn more about programs at Corporate SPACE CAMP and AVIATION CHALLENGE!

### We're known by the company we keep:

Adtran	MCI/WorldCom
AT&T	Nokia
Andersen Consulting	Omega Travel
Bayer CropScience	Sears
BellSouth	Southern Wholesale Energy
Boeing	S.W.I.F.T.
Bristol-Myers Squibb	TVA
CIA	Toshiba
Chevron	Volkswagon of America
Discovery Europe	Xerox

### And by the recommendations they give us:

"We learned how non-participation from even one member could mean failure for the entire mission."  
— Laura Udall, AT&T

"It's a great vehicle for taking them (employees) out of their element, and that's the most important part, especially when dealing with corporate executives. We received very favorable results. I would recommend it to anyone."  
— Jim Caprara, Sears Roebuck

"Space Camp was one of the most memorable weeks of my life! Where else can you experience a centrifuge, an orbiter, an F-18, mission control, and scuba diving all in one place? Space Camp was a great reminder that the mind can be as expansive as the universe."  
— Pierre Omidyar, Founder & Chairman, eBay

## Corporate Programs

At SPACE CAMP® and AVIATION CHALLENGE®

Offered By Rocketman Productions

## LEARNING AND DEVELOPMENT PROGRAMS

**Rocketman Productions** and the **U.S. Space & Rocket Center**, the world's premier space and aviation "experiential" program leader for all ages, are committed to assisting companies, large and small, in developing and maintaining the skills necessary to compete in this highly evolving global marketplace.

Through our distinctive programs, we can teach your team the secrets of mission success. Success in space exploration or combat aviation is a necessity, driving the professionals of our space program and our military services to develop the most effective success strategies in the world today. At Corporate SPACE CAMP and AVIATION CHALLENGE, we put these principles to the test and challenge professional teams to face very familiar problems – change, conflict resolution, team building and communication.

Recognizing that each client has unique training needs, we offer a variety of programs designed to serve you and your team.

### BRING YOUR OWN TRAINER/FACILITATOR

We know that the real impact of any training program is seen in the participants' job performance, along with actively supported follow-up training. Let our professional staff help you plan a training experience that supports your internal goals and objectives. Your internal trainer can leverage the Corporate SPACE CAMP or AVIATION CHALLENGE experience – producing a high return on your training investment. Call for pricing and details.

### "Mission to the S.T.A.R.S." GOVERNMENT TRAINING WITH OPM

This dynamic 2-day seminar, initiated in October of 2000, continues to challenge participants to plan and execute a simulated rescue as a "scientific task force of American rescuers in space" (STARS). The simulation will require participants to work together in teams, to change behaviors and processes, possibly even to design their future – just as the NASA teams did a few years ago.

The U.S. Office of Personnel Management (OPM) has identified 27 managerial competencies that enhance the performance of today's and tomorrow's federal workplace. While focusing on seven that impact leadership during critical times, participants will create, share, and apply leadership concepts and skills to address the

challenges of the decade. They will be exposed to "cutting edge" training experiences and meet and network with individuals from many government agencies.

This program is open to managers and teams who are in leadership roles. Usually GS-12's to 15's attend; however, intact teams representing various GS grade levels are appropriate.

**Corporate SPACE CAMP and AVIATION CHALLENGE** allow your team to reinforce the lessons they learn and take that real value back to their work environment.

### CORPORATE SPACE CAMP

**CORPORATE SPACE CAMP** integrates the excitement of our nation's space program with corporate development training to promote leadership and teamwork.

#### 5...4...3...2...1, Liftoff!

Just like real astronauts, our simulated space training exercises require effective problem solving and teamwork to achieve a successful mission. Whether you're launching a space Shuttle, monitoring its orbit, completing a space walk, or landing safely on Earth, each crew member plays an active and critical role in the mission.

### CORPORATE AVIATION CHALLENGE

Corporate AVIATION CHALLENGE combines the thrill of simulated jet fighter pilot training with interactive classroom sessions to tackle almost any issue – teamwork, communication or leadership.

Each role is critical to the overall success of the simulated air combat mission, whether it's piloting the aircraft or using the radar system to hunt "bogey's." Your team will be put to the test in an intense simulated air combat mission. Learn the secrets of Pre-flight Planning, Post-flight Debriefs and how to achieve disciplined, efficient execution of the Mission Plan. Overall mission success depends on how well your team evaluates the competition, processes available intelligence/information, executes the plan and assesses mission performance.

Corporate AVIATION CHALLENGE provides the flight instruction, but it's your team's experience, skills and good judgment that make the mission successful.

### LAND AND WATER SURVIVAL

Assume the role of SEAL TEAM SPECTRE. Our highly skilled and knowledgeable staff will immerse your team in the role of Navy Seal or other highly skilled military operation specialist. Sergeant Major Jerry Gleason, a highly decorated combat veteran and survival expert, and his team have created numerous land and water survival courses that will challenge even the most experienced outdoor enthusiast. Rescue a downed pilot, experience a simulated helicopter crash in the water, and ride the zip line that simulates the last 50 feet of a parachute descent to the sea. It's a rush in more ways than one.

### LOW ROPES/LEADERSHIP REACTION COURSE

Our Leadership Reaction Courses consist of obstacle courses designed to test individual leadership characteristics, as well as the group's ability to function effectively as a team under stress-induced conditions. Each team will have to make on-the-spot decisions.

Each obstacle will be timed, and when time's up, your group will have the opportunity for immediate feedback. They'll learn more about their specific performances. Then, they can take those results back to the workplace.

## INCENTIVE PROGRAMS

Enhance your next corporate meeting, or reward your employees with the dramatic environment of SPACE CAMP or AVIATION CHALLENGE!

### CORPORATE SPACE CAMP

Want to become an astronaut for a day? You don't just hear about what an astronaut does, you'll do what an astronaut does! Train on simulators patterned after those actually used by NASA.

You and your teammates will engage in an intense, realistic simulated Shuttle mission, from countdown to touchdown.

### CORPORATE AVIATION CHALLENGE

Have a group of top sales people you'd like to reward? How about those team players that always go the extra mile? AVIATION CHALLENGE Corporate Camp can customize a one, two, or three day program that's perfect for your top players.

It's a place where business suits are replaced with flight suits, cellular phones are exchanged for throttle controls and you're calling the shots from the seat of a high-performance jet in a simulated air combat mission!

To learn more about these Corporate Programs, or to reserve a session call Rocketman Productions at 408.487.1804 or e-mail us at [info@rocketmanproductions.com](mailto:info@rocketmanproductions.com).

Note: Some activities shown may vary.
